OUR RESPONSIBILITY FOR NATURE AND THE ENVIRONMENT

The Forest Stewardship Council® is an international non-governmental organisation that promotes the environmentally friendly, socially equitable and economically sustainable management of the world's forests. We are committed to complying with the FSC® core labour standards in accordance with the current FSC® standard. Keep an eye out for FSC®-certified products! www.FSC.org
Our licence number: FSC®-C152854

The organic label is used to identify products that are produced and processed, imported and traded in accordance with EU legislation on organic farming.
Sales certified by: DE-OKO-006

The Fairtrade Mark is the world's best-known social certification label. Buying Fairtrade products supports small-scale farmers and workers to improve their living conditions and those of their communities. Products bearing the Fairtrade Mark meet internationally agreed social, environmental and economic Fairtrade standards.

**RAINFORREST
ALLIANCE**

The Rainforest Alliance is an international non-profit organisation working at the crossroads of trade, agriculture and forestry. Our aim is to create a better future for both people and nature in which responsible business practices are a matter of course.
www.rainforest-alliance.org

With its Farming Program, Lindt & Sprüngli campaigns for an improvement in the standard of living of cocoa farmers and the preservation of the environment.
www.farming-program.com

EcoVadis, an independent platform for sustainability ratings, assesses the CSR performance of over 130,000 companies worldwide. The evaluation covers environmental impact, ethics, labour and human rights, as well as sustainable procurement.
www.ecovadis.com/en

Almost all our products are filled at our production and packaging site in Thuringia. We also call on branded products from Germany and Europe for our filling materials.

PROTECT THE ENVIRONMENT, PRESERVE THE FUTURE

Resource efficiency and environmental responsibility are key priorities for us. Our focus lies on the gradual reduction of CO₂ emissions. This also includes carefully chosen partnerships: many of our suppliers are based in Germany and Europe, helping to keep transport routes short and reduce emissions.

WITH SOLAR ENERGY INTO AN ENVIRONMENTALLY FRIENDLY FUTURE

A modern photovoltaic system with 1,840 panels covering more than 3,000 m² supplies a large share of the energy required to produce our promotional materials. Under ideal conditions, it can cover up to 80% of demand – a strong statement for responsible and future-oriented production.

GREEN MOBILITY: COMMUTING WITH ELECTRIC CARS AND JOBRAD

To promote more sustainable mobility, we invest in electric vehicles and a job bike program. This enables our employees to organize their commute in a more flexible and healthier way – while actively contributing to lower emissions.

SUPPORT FOR THE

CONSERVATION AND RESTORATION

OF PEATLANDS

© Naturstiftung David, Thomas Müller

Peatlands make an important contribution to carbon sequestration, protect against flooding, and provide valuable habitats for rare species. As around 90% of Germany's peatland areas have been drained, conservation and restoration are becoming increasingly important. Therefore, since 2025, we have been supporting projects aimed at restoring peatland landscapes in Baden-Württemberg and Thuringia. Our voluntary contribution to the Baden-Württemberg Climate Protection Foundation enables the sequestration of a total of 40 tonnes of CO₂ over 80 years in the Schwenninger Kugelmoos peatland. In addition, a donation to the David Nature Foundation helps support the implementation of the project "Streams, Peatlands and Alpine Meadows in the Thuringian Forest."

OUR CONTRIBUTION TO CONSERVATION: SPONSORSHIP FOR

OKAPI IMBA EXTENDED

The Wilhelma in Stuttgart, the wildest place in Germany and one of the zoos with the most species anywhere in the world, fights tirelessly for the preservation of our precious biodiversity. It campaigns for environmental education and scientific research – issues that are very close to our heart. For this reason, we took over the sponsorship of the adorable female koala Auburn at the end of 2023. We see our commitment as a long-term cooperation and will therefore continue our support in 2025.

We are looking forward to renewing our sponsorship of the okapi bull Imba in 2026. Okapis have something in common with us as a giveaway manufacturer: the outer "shell" – in the case of okapis this is the very special pattern of their fur – makes not only okapis but also our products special and eye-catching highlights that are sure to be remembered.

Our social and environmental commitment is not just empty rhetoric, but a fantastically sweet reality.

GIVE CHOCOLATE, GIVE FUTURE

We are keen to ensure that children grow up in a safe environment. Thanks to our annual fundraising campaign over the festive period, we support the Albert Schweitzer Children's Village in Waldenburg and make it possible to provide help where it is urgently needed. For every Classic Wall Advent Calendar you buy, we donate money to the NGO Albert Schweitzer Kinderdörfer und Familienwerke. In 2025, this campaign generated a total of 8,000 euros.

WE EMBRACE INCLUSION.

Social equality and participation are an important aspect of our corporate values.

That is why we have already spent many years working with workshops for people with disabilities. For example, we support the Christliche Jugenddorfwerk Deutschland (CJD) in targeting the integration of employees in daily working life. We regularly offer external workplaces at our site so that those involved can share their day-to-day work with our employees. We are grateful and delighted to be able to cooperate with the workshops. Both sides can benefit from this action from an organisational and, more importantly, a social standpoint and together gain valuable experience.

INTO THE SPOTLIGHT

ACROSS OUR ENTIRE PRODUCT PORTFOLIO,
WE CALL ON HIGH-QUALITY MATERIALS AND BRANDED PRODUCTS
THAT WE MAKE USE OF IN THE BEST POSSIBLE WAY.

BUT WE SHOULDN'T FORGET THE SILENT PRODUCTS THAT TURN OUR GIVEAWAYS INTO SECRET STARS, SPARKLING WITH QUALITY AND RESPONSIBLE MANUFACTURING PROCESSES.

To tease these products out of their "quiet corner" and give them the stardom they deserve, we have developed our "Secret Stars" label.

OUR LABEL STANDS FOR QUALITY AND RESPONSIBLE MANUFACTURING PROCESSES

OUR "SECRET STARS" SATISFY IMPORTANT CRITERIA:

- 🎯 The products are produced for our range
- 🎯 They are produced in fair working conditions
- 🎯 Transparent production processes ensure premium quality
- 🎯 Production takes place in Europe, preferably in Germany
- 🎯 Manageable transport routes reduce CO₂ emissions
- 🎯 Regular quality checks and independent certifications

MINI BARS FOR MAXIMUM PLEASURE

Our Neapolitans, chocolate squares and designer chocolate are the true start in the chocolate firmament.

They are made from 30 % whole milk chocolate, making them particularly full-bodied and delicately soft. The squares are Fairtrade certified and wrapped in recyclable glassine paper. A clean solution.

Thanks to the passionate work of experienced chocolate specialists, we can recommend this product range with a clear conscience. You'll find the products in the chocolate section.

RECYCLABLE PROMOTIONAL PAPER BAG

Our PaperPlus and PaperPlus Pro promotional bags are true all-rounders when it comes to safely packaging a wide variety of products. Both versions are made from recyclable paper and can be easily disposed of via paper waste. This solution is particularly innovative in the promotional products sector and is revolutionizing candy promotion—especially gummy bear bags.

DELICIOUS

MADE IN GERMANY

Our next Secret Star:
the delicious Basic
Fruit Jelly Bear.

Quality doesn't always have to cost an arm and a leg. The fruit gum is produced in Germany, thereby avoiding long transport routes. With six fruity varieties – pineapple, lemon, orange, strawberry, raspberry and apple – the basic bears offer a colourful taste explosion. Boasting an attractive price, the Basic Bears are rightly included among our Secret Stars – you're sure to be impressed.

 **SECRET
STARS**

CARDBOARD INLAY:

SUPERSTARS FOR CHRISTMAS

Hidden behind 24 little doors, but genuine stars nonetheless – our environmentally friendly cardboard inlays. These are made from 100% paper so that they can be returned to the recycling circuit. They can be disposed of quite simply in the paper bin. The cardboard inlay variants also score highly in the manufacturing process: for example, the pressure-formed cardboard inlays require only a fraction of the energy needed to produce their plastic counterparts.

REGIONAL. NATURAL. YUMMY.

Honey is extremely delicious and a valuable foodstuff, but it gets even better: when you purchase a honey bee product, you are supporting a nearBees bee protection project. As pollinators, the proverbial hard-working producers of the golden-coloured delicacy

ensure flourishing landscapes and high-yielding harvests, as well as the future preservation of the plant and animal world. This appeals to honey fans and the many people who appreciate these small insects with yellow stripes.

GENERAL INFORMATION

We have put some basic information together for you. Please note that every inquiry naturally has to be dealt with individually as we could not hope to cover every possible case in writing here. Our customer advisers would be happy to advise you and answer any questions you may have by phone. To make sure the advice you get corresponds to your particular inquiry, we require your desired print subject.

Delivery times

Our delivery dates are valid as stated in the order confirmation, in each case within the delivery week/day of delivery. Our delivery times depend on the approval of the printing copies and not on when printing copies were received. We cannot confirm a delivery time without an approval of the printing copies.

In the case of high capacity utilisation, delivery times may be extended (e.g. during the Christmas and Easter seasons)

Perishable foodstuffs

Foodstuffs cannot be exchanged. Please check the goods as soon as you receive them and send us any complaints within 24 hours. We cannot accept any complaints received after this period of time. Once the goods leave our premises, we no longer have any influence on our foodstuffs and thus cannot accept any responsibility or liability either in terms of quality or in terms of the food law.

In warm weather, it might be necessary to deliver some products by cold-storage lorry to guarantee the goods arrive in perfect condition (note: different freight costs).

Corrections

Nothing is printed until you have given us your approval in writing. Making changes to the proof you receive from us does not constitute an approval. You will receive a corrected proof to be checked and approved. Please make sure you check the proof we send you very carefully. If you are at all unsure, give us a call. We would be happy to help you. Your approval is a mandatory part of the order. It has unlimited validity and cannot be revoked. We cannot assume any responsibility for the prints you approve or for errors of any kind which may have been overseen.

If we are in possession of your data 1:1, the proof is created free of charge. We reserve the right to charge a flat rate for changes made to the proof starting with the third corrected proof.

You will be charged for any work carried out by us in preparation for your approval if you subsequently cancel your order. For extra ordered or seasonal goods, we will also have to charge you for these costs.

Order Changes

After receiving the order confirmation, we can only make system-relevant changes requested by you for a fee of 49,- €

Complaints

If you have any complaints, please get in touch with us immediately. We require at least ten per cent of the total order as proof of the fault. Please send the goods back to us as proof in the original packaging. This also applies to any complaints you have about printing. Complaints about the taste and appearance of foodstuffs can only be accepted if you handled and stored the goods correctly.

Example: Foodstuffs must be stored in a dry place and be protected from changes in temperature (warm/cold).

If you have any questions, please do not hesitate to contact one of our customer advisers.

Damage during transport:

All delivered goods, whether on pallets or in the form of parcels, must be checked immediately for any damage (correct securing, wrapping/boxes undamaged). The driver (freight/logistics company) must be made aware of any visible damage and should confirm this damage in writing on the delivery papers.

Please note down the exact details of the damage, including photos, and inform us immediately. Claims concerning damage reported at a later date and/or damage not recorded on the delivery papers cannot be claimed retroactively!

Order quantities

For technical reasons, divergence of quantities up to ± 10% is possible. Depending on the category of product, our products are either counted or weighed before they are packed. This can result in different quantities in individual boxes. The final number is checked and logged by us. If there are any irregularities per packing unit, please check the final number.

Notes on packing

When ordering, please take our packing units into consideration. The specified freight costs are approximated, not binding, and cannot be determined precisely until the order has been completed.

Biscuits, cookies, and other baked articles can break during transport.

Colours

Depending on the material and product, colours may deviate.

In the case of multi-coloured printing, a colour-binding proof of the provided data is mandatory.

When using a transparent, coloured, or metallic base, colour reproduction can vary if a white background is not used. We would therefore recommend that you use a white background, if technically possible, which is charged as an additional print colour (not in digital printing). To avoid complaints about colour, please make sure you include a colour-binding proof.

Unchanged reprints can also demonstrate colour deviation.

This is for technical reasons and cannot be avoided. Nuances of colour deviation will therefore not be recognised as a complaint.

Product deviations

Please note that the design of included products may differ from the design in the catalogue. Changes made by the manufacturer at short notice cannot be ruled out. Complaints regarding such changes will therefore not be accepted.

Further processing

Variations can occur during processing for technical reasons. This applies, for example, to press cuts and blanks of cardboard packaging. In the case of foil products, there can be a slight shift of the motif during packing.

In the case of solid designs, cutting can only be controlled within a certain tolerance. It is therefore possible that colour transitions in the motif are displaced in the cutting area and thus visible as a fine stripe (of the other print colour) at the cutting end of the packing.

In the case of bags, the content text may be concealed in part by the sealed seam.

Tetrahedron packaging:

Due to the packaging, it could happen that the position of the printed image varies on the triangular advertising space.

Sticky wrappers:

Slight blistering may occur and it could happen that the ends of the wrapper may not meet exactly.

Shelf life

The best before date printed on the promotion packaging (1 week tolerance) is based on the delivery date at the time the print is approved. If there are postponements on your part, we will only adjust the best before date at your request and will charge 49,- € for the change. No more changes are possible if the print has already been made.

The best before date can only be guaranteed if the storage is suitable for use with foods. Taking the product specific properties into account, please ensure you store the product in a dry, cool place protected from sunlight. Temperature fluctuations should be avoided, especially with products containing chocolate, as otherwise a bloom of fat (white coating) can form.

Manufacturer's notification on products

In accordance with EU directive 178/2002 for the guarantee of food safety and in compliance with the requirements of the food law, we will be attaching a manufacturer's notification to our products/selling units. For most products, the end customer, dealer, or agency can decide whether he himself as the issuer should be specified on the product packaging or outer packaging or whether the manufacturer should be named. If we are not provided with a manufacturer's notification, we will use our manufacturer. If the end customer explicitly rejects all these specifications, the manufacturer must be released from all claims in writing.

We are obliged to advise you that manufacturer's data must comply with legal specifications. The data are not intended for any promotional purpose.

Declaration

Due to food law regulations in accordance to VO 1169/2001, the declaration must be in the official language of the country in which the goods are distributed. If declared in another language, we can not guarantee the marketability of the goods. The responsibility of marketability in this case passes to the customer.

Distribution list

If the products are to be sent to different shipping addresses, please send us the address data as an EXCEL file with one address component per column (e.g. company1/company2/street/postal code etc.). Just ask for our template. Bills of delivery must be provided in triplicate. Depending on the work involved, additional costs may be incurred.

- Please write your address, file name, logo name, product name, and order number clearly on the data carrier (e.g. CD) and include a printout of the files.
- The printout should include the file name and the name of the printing colour(s) required, e.g. HKS, Pantone.

The fastest way to order:

Just send your data, including the name of the motif, by email to your customer adviser. If the data exceeds 100 MB, we recommend you send us the data via FTP server. If you have any further questions on exchanging data, please do not hesitate to contact your customer adviser.

Printing information

Fine details, small fonts, and trademarks can smear or disappear. In the case of multi-coloured printing, a colour-binding proof of the provided data is mandatory.

QR CODE and barcode

Please note that we cannot guarantee that QR codes will be legible.

Printing methods:

4-c digital printing: Paper/cardboard, boxes, foils, labels

4-c designs are available at attractive prices even with small quantities. Register differences cannot occur. The colours are always compiled from the 4-c process. Special colours in accordance with HKS or Pantone can only be approximated.

Boxes: Applying a white background to the motif, as is usual with silver boxes in pad printing, is not possible. In these cases, transparent inks are not opaque and therefore often do not achieve the desired colour tone (can look dirty). Please also note that negatively recessed elements will appear in box colours in print. On the other hand, this can result in a very elegant effect thanks to the shining through e.g. of a shiny box. Slight streaking may be visible with extensive colour designs.

Slight traces of spray mist possible around the edge of the motif due to the production process.

Due to the bled-off round surface structure of the product, there may be a slight distortion of the printed image.

Foils: Some parts of the sealed seams cannot be printed (see imposition layouts)

1-4-colour flexo: Foils

In full-surface printing, register differences are possible to an extent. A fine unprinted line over the foil is a result of the block ends meeting. Colour rubbing on the sealed seam is also possible in full-surface printing. Designs with extensive ink coverage and metallic colours should be varnished to protect them from colour rubbing (counts as an additional print colour).

In printing technology, breaks in the screen cannot be avoided. The tolerances for this are:
- Flexo printing 3%

Sweets: In full-surface printing, a white edge (each of 1 mm) remains on the side at the end of the wrapper ends. Due to the block ends meeting, a fine white stripe runs across the width of the paper.

Note: Halftone motifs only after a printability check. A colour-binding proof of the data provided is required with multi-colour screen motifs.

1-4-colour offset: Paper, cardboard

An attractive price for larger print runs. Printing of special colours in acc. with HKS and Pantone is possible. Fluorescent inks cannot be used.

1-4-colour pad: Boxes, dispensers

Register differences are possible to an extent. The double printing of individual colours may be necessary for full-surface motifs (counts as an additional print colour in each case). Slight scratches and unevenness may appear due to the material.

In printing technology, breaks in the screen cannot be avoided. The tolerances for this are:
- Pad printing 15%

Sleeve: A slight distortion is possible on rounded parts.

We alone make the decision on which printing process we use for our products/orders.

**The prices are valid from May 1st, 2026 and do not include VAT. Subject to alteration of prices!
